

I'm Dr. Esther G. Moguer. I'm very fortunate to attend this wonderful webinar. Actually, this is the first time that I will handle online class. That's why I'm a bit anxious about what will transpire in this modality of learning. Your webinar will ease my worries because it's relevant, it will help me to prepare and be aware of the possible things that will happen in the future. I'm looking forward to your future webinars to widen my horizon.
